Undergraduate Nursing

2018-2019
Academic Year

Prepare to be the **best.**

Clarkson College Nursing Program Mission Statement

Preparing students to professionally provide high quality, ethical and compassionate health care to individuals, families, communities and populations.

Clarkson College Mission

Preparing students to professionally provide high quality, ethical and compassionate health care services.

Clarkson College Values

Learning, Caring, Commitment, Integrity and Excellence.

Notice

The information in this handbook is intended to be informational and not contractual in nature. Clarkson College reserves the right to amend, alter, change, or modify the provisions of this handbook at any time and in any manner that the Nursing program, Administration or Board of Directors deems is in the best interest of Clarkson College and its students.

Notice of Non-Discrimination

Clarkson College complies with all applicable federal, state and local laws relating to discrimination and does not discriminate on the basis of race, color, religion, ancestry, sexual orientation, physical or mental disability, age, national origin, ethnicity, sex, veteran's status or marital status in the administration of its educational programs and policies, financial aid, activities or other school administered programs. Questions regarding Title IX may be referred to the Title IX coordinator or to the Office of Civil Rights. The Director of Student Services serves as the Title IX Coordinator and is located in the Success Center. The Title IX Coordinator can be contacted at 402.552.2693, 1.800.647.5500, or at hesskris@clarksoncollege.edu. The Office of Civil Rights can be contacted at the US Department of Education, Office of Civil Rights, Lyndon Baines Johnson Department of Education Bldg., 400 Maryland Avenue, SW, Washington D.C., 20202-1100; the phone number is 1.800.421.3481, and the email address is OCR@ed.gov. Questions regarding other types of discrimination should be directed to the Director of Human Resources, Deb Tomek, at tomekdeb@clarksoncollege.edu. Questions regarding accommodations for student disabilities should be directed to the Accommodations Coordinator at accommodations@clarksoncollege.edu.

Nursing Program Philosophy

We, the Nursing faculty of Clarkson College, believe we possess the knowledge, skill and caring attitude to educate individuals for the professional practice of nursing. We are committed to scholarship through lifelong learning and the pursuit of knowledge. Consistent with the Clarkson College Values, the Nursing faculty value Learning, Caring, Commitment, Integrity and Excellence in our professional relationships. We are dedicated to the dignity, health and spiritual needs of people. We are committed professional nurse educators who foster the learning of nursing in a caring environment.

We believe the study of nursing is consistent with and fosters the Clarkson College Mission and Values. Our beliefs regarding human being, environment, health, education, nursing education and nursing are contained in the Nursing program's philosophy. A *human being* is an individual who consists of a mind, body and soul, developed through interpersonal relationships and influenced by environment, culture and health. *Environment* is a set of dynamic physical, cultural, political and economic conditions that influences the lives of individuals, families, communities and populations. The individual is in constant interaction with an ever-changing global environment. Nursing recognizes the impact a person's environment has upon health. *Health* is an individually perceived dynamic state of well-being. Nursing is a humanistic and scientific care discipline and profession.

We profess that *education* is a formal process of organizing concepts and elements, planning appropriate activities, facilitating individualized learning experiences and evaluating subsequent outcomes. We ground *nursing education* in the totality of the human experience through the study of the humanities, arts and sciences within the scope of nursing practice. We believe students are partners in the educational process and encourage learning by discovery, curiosity, clinical decision making, experience, reflection, modeling, collaboration and interactive participation. We model service to the College and community and celebrate the diversity of human beings.

We believe there are various educational levels within nursing. The practical, baccalaureate and graduate nursing programs at Clarkson College represent these levels. Practical nursing education provides for entry-level technical practice, while the baccalaureate in nursing is the entry-level for professional practice. Graduate nursing education prepares the professional baccalaureate nurse for advanced practice and expanded roles within the discipline. Our programs allow for articulation from one level of nursing education to the next.

We believe caring is the foundational core of the nursing profession and is the energy present in empowering relationships. Caring for clients includes the ability to teach, lead and inspire individuals/groups toward optimal health and wellness. We, the Nursing faculty of Clarkson College, believe that caring is the essence of nursing and the most central and unifying focus for nursing practice. Our students are educated in the concepts of caring, client-centered care, teamwork and collaboration, evidence-based nursing practice, quality improvement, safety, informatics, and professionalism.

Organizing Framework & Curriculum Development Plan

The organizing framework provides a base for planning curriculum content, course sequencing, curriculum evaluation and flows from the simple to the complex. The organizing framework is derived from the philosophy and is composed of the major beliefs regarding human beings, environment, health, education, nursing education and nursing. The concepts of caring, client-centered care, teamwork and collaboration, evidence-based nursing practice, quality improvement, safety, informatics, and professionalism are interrelated with the beliefs and identified within our philosophy. The Nursing program's mission is to prepare nurses to provide high-quality, ethical and compassionate health care to individuals, families, communities and populations. The College Values of Learning, Caring, Commitment, Integrity and Excellence are reflected within the organizing framework that supports the mission of the Nursing programs and Clarkson College.

The Clarkson College Nursing program concepts are defined as follows:

Caring is the foundational core of the nursing profession and is the energy present in empowering relationships.

Client-centered care provides for a partnership between the nurse and the client (human being). Caring for clients includes a desire to understand their values, care preferences and expressed needs in all settings ranging from prevention to treatment. Open communication between the client and nurse fosters continuity and respect for cultural differences to promote healthy relationships.

Clients include individuals, families, communities and populations.

Teamwork and collaboration include the processes of shared decision making, mutual respect and open communication among the nursing professionals, interdisciplinary teams and the client.

Informatics is the use of information and technology to identify, create, represent and distribute knowledge to decrease error and support informed decision making.

Professionalism is the process of actualizing the values of accountability, ethical and legal responsibility, altruism, autonomy, human dignity, integrity, and social justice. The nurse pursues professionalism through excellence in practice, knowledge through scientific discovery, application, scholarship, as well as professional advocacy in accordance with the American Nurses Association (ANA) Code of Ethics/National Federation of Licensed Practical Nurses Code of Ethics and Nursing's Social Policy Statement and Standards of Practice.

Safety involves minimizing the risk of harm to clients and providers through standardized practices and use of technologies that support safety and quality. Safety requires an understanding of the causes of error and allocation of responsibility and accountability.

Quality improvement is a process that uses data to monitor the outcomes of client-centered care, designs and tests changes, and continuously improves the quality and safety of health care systems.

Evidence-based nursing practice applies the scientific method to the nursing process in conjunction with clinical decision making. This practice integrates research, clinical expertise, client values and preferences for optimum care.

End of Program Student Learning Outcomes

Upon completion of the Bachelor of Science degree in Nursing, graduates will:

- Evaluate caring relationships and behaviors that contribute to positive outcomes for clients, families, communities and populations, as well as health care providers and health care systems. (Communication, Diversity)**
- Analyze client-centered care with respect to health, environment and cultural preferences across the lifespan while respecting the client as the source of control. (Diversity, Critical Thinking)**
- Function effectively within nursing and interdisciplinary teams, fostering teamwork and collaboration with the client, family, community and populations. (Communication)**
- Utilize best current evidence considering clinical expertise along with client and family preferences for the delivery of optimal health care. (Critical Thinking, Professionalism)**
- Participate in data evaluation to monitor client outcomes to continuously improve the quality of health care. (Technology)**
- Evaluate standardized practices and technologies to minimize the risk of harm to clients and health care providers through both system effectiveness and individual performance. (Critical Thinking)**
- Analyze information and technology resources to build knowledge, select the mode of communication, to decrease error and support decision making. (Technology)**
- Analyze behaviors consistent with the ANA Code of Ethics, Nursing's Social Policy Statement and Standards of Practice into the role of the professional nurse. (Professionalism)**

***Categories denoted in the parentheses represent relationship to Clarkson College's student success skills, which are our institutional student learning outcomes, and include Communication, Technology, Critical Thinking, Diversity, and Professionalism.*

Academic Progression

ACADEMIC PROGRESSION

Academic success is only one requirement for progression in the Nursing program. The student must also comply with the Professional Conduct Policy.

The curriculum is organized so that a student must satisfactorily complete the nursing courses in the proper sequence at each level before progressing to the next level.

Failed courses in the nursing major or the following support courses: CH 110 General Chemistry, BI 210 Microbiology, BI 211 Anatomy, BI 213 Physiology, HC 220 Gerontology and BI 227 Pathophysiology can be repeated to achieve a passing grade; however, a nursing major or support course may not be repeated more than one time. A student who fails a nursing major or support course more than once will be dismissed from the BSN program.

The final theory course grade consists of a letter grade. Students must complete course work with a grade of 80% or above in order to successfully complete theory course. An earned 80% test score average in addition to an overall earned course average of 80% is required of all students in order to pass a nursing theory class. If a student does not pass on either the test average or the overall average, only the grade that reflects the failing grade will be posted and turned in to the Registrar.

For clinical nursing courses, a final grade of Pass (P) or No Pass (NP) will be given to indicate clinical

achievement.

A student is required to achieve a passing grade in the following support courses to be allowed to progress to the next level: CH 110 General Chemistry, BI 210 Microbiology, BI 211 Anatomy, BI 213 Physiology, HC 220 Gerontology and BI 227 Pathophysiology.

A student must earn a minimum grade of “C” in a theory course and a Satisfactory Progress (SP) in a clinical course in order to successfully complete a nursing course. Failure to achieve either of those grades will result in the student being required to repeat both theory and clinical courses.

Students must also meet the Comprehensive Student Assessment (CSA) policy in order to progress in the BSN program.

COMPREHENSIVE STUDENT ASSESSMENT (CSA) POLICY

ATI:

ATI exams are required of all Baccalaureate nursing students. Completion of the exam is identified in the respective course syllabi.

Students whose composite ATI score falls below the Proficiency Level 2, must complete the ATI Focused Review Process and retake that ATI test until the Proficiency Level 2 is achieved.

Failure to 1) take the ATI exam, 2) complete the Focused Review Process, and/or 3) retake the exam to achieve Proficiency Level 2 will result in an automatic course grade of incomplete for the course. The student must then complete the specific work to receive a grade for the course. This may impact the student’s progression in the nursing program and/or completion of the student’s program.

If an ATI exam is required during the semester you will be notified by your instructor.

ATI PROGRESSION POLICY

The student must achieve the required passing score for the ATI exam before progressing to the next semester. The student needs to pass the ATI exam prior to 5:00 pm Friday of the first week of class. The student will be allowed to register and attend class the first week. If the student does not pass the ATI exam prior to this deadline, the student will be required to withdraw from the course.

ATI REMEDIATION POLICY

The clinical instructor will review the focused review notes after first failure and may offer to meet with the student after second failure for remediation counseling to address areas of weakness. The student must allow forty-eight hours for the focused review process before retaking the next proctored ATI exam. During the focused review process, consider using other sources to review topics such as your nutrition textbook, medical-surgical text, and ATI website. Under the section on ATI products is a “Learning tab” where additional resources for test taking are available, such as Nurse Logic and Achieve.

WITHDRAW FAIL

A student may Withdraw Fail (WF) once from any major or support course in the Baccalaureate Nursing program. After receiving a Withdraw Fail (WF) in a major or support course, the student must repeat the course for a grade.

A student may Withdraw Fail (WF) from only two major or support courses during his/her current program of study. Withdraw Fail (WF) from a third major or support course will result in dismissal from the Baccalaureate Nursing program.

COURSE FAILS

A student can receive a “D” or “F” in only one major or support courses during his/her current program of study. A “D” or “F” from a second major or support course will result in dismissal from the Baccalaureate Nursing program.

INCOMPLETE

If a student needs extended time to meet clinical competencies due to an extenuating life event (i.e. pregnancy, death of a family member, etc...).The student has the following options:

- a. If there are available clinical hours remaining in the semester with the site, the student can complete the clinical hours during the scheduled semester as outlined by the clinical faculty.
- b. If there are no clinical hours remaining in the semester or clinical site options available, the student can take an incomplete in the clinical course, as long as the student is in good standing. The remaining clinical hours will need to be made up in the immediate following semester. The student would not be able to progress in their program, until the clinical course and any co-requisite coursework are successfully completed. Students would not be allowed to progress in their program during the semester that clinical make-up is being completed.
- c. The student may meet with the accommodations office for further needs, to assess for temporary accommodations.

Course Instruction

STUDENT RESPONSIBILITIES FOR LEARNING

1. Students are responsible for their own learning.
2. Attend class on time and on schedule. Class rolls are utilized to record student attendance and instructors are to be notified in advance if the student is unable to attend class.
3. Required theory and clinical assignments must be completed to the student’s best ability and turned in on time.
4. Assigned material is to be read prior to class attendance.
5. Students are expected to be aware of their own progress and ask for additional clarification or assistance in a timely manner, as needed.
6. Students are encouraged to meet with faculty when test/course grade is less than 80%.
7. The Nursing Skills Lab and the Success Center are available if assistance is necessary.
8. While the preferred method of communication between the student and instructor is via the Clarkson College email, each individual instructor will define their preference. It is the student’s responsibility to ask the faculty if there are any questions regarding communication in the course.
9. Active involvement in activities, assignments, and discussions in the classroom or via the classroom online platform is expected.
10. Students are expected to contact course faculty if they experience difficulties with course content or accessing information.
11. Exams are to be taken as scheduled.
12. Use the add/drop courses procedure as outlined in the College catalog.

13. Complete course work with a grade of 80% or above in order to successfully complete theory course. An earned 80% test score average in addition to an overall earned course average of 80% is required of all students in order to pass a theory nursing class. Percentage grades will not be rounded (i.e., a 79.98% will not be rounded to an 80%). The final theory course grade consists of a letter grade. Students must complete course work with a grade of 80% or above in order to successfully complete theory course. If a student does not pass on either the test average or the overall average, only the grade that reflects the failing grade will be posted and turned in to the Registrar.
14. A grade of Pass (P) or No Pass (NP) will be given to indicate clinical achievement.
15. Student responsibility to maintain clinical skills checklist each semester.
16. It is the student's responsibility to obtain returned paperwork/assignments by the end of the semester.
17. Students are expected to follow all College and Program specific policies.
18. Professionalism is expected at all times in the classroom.

ACCOMMODATIONS POLICY

Clarkson College, in compliance with Section 504 of the Federal Rehabilitation Act of 1973 ("Rehabilitation Act"), the Americans with Disabilities Act of 1990 ("ADA") (as amended, 2008), and the Nebraska Fair Employment Practices Act, provides equal access to educational opportunities to otherwise qualified individuals with disabilities. The College will provide reasonable accommodations to otherwise qualified individuals provided these accommodations do not: 1) fundamentally alter the nature or operation of the programs, services, or activities at the College, 2) cause undue burden to the College, or 3) pose a direct threat to the health and safety of others. To request accommodation(s) or additional information, please contact the Accommodations Coordinator at accommodations@clarksoncollege.edu

GRADING SCALE

A+	100% – 98%	B+	92% – 89%	C+	84% – 82%	D	79% – 76%
A	97% – 93%	B	88% – 85%	C	81% – 80%	F	≤ 75%

The final theory course grade consists of a letter grade. Students must complete course work with a grade of 80% or above in order to successfully complete theory course. An earned 80% test score average in addition to an overall earned course average of 80% is required of all students in order to pass a theory nursing class. If a student does not pass on either the test average or the overall average, only the grade that reflects the failing grade will be posted and turned in to the Registrar.

1. The final theory course grade consists of a letter grade. An earned 80% test score average in addition to an overall earned course average of 80% is required of all students in order to pass a nursing theory course. Percentage grades will not be rounded (i.e., a 79.98% will not be rounded to a 80%).
2. For the clinical nursing courses, a letter grade of Pass (P) or No Pass (NP) will be given to indicate clinical achievement.
3. The course competencies derived from the level outcomes of the curriculum for the nursing major are the criteria for evaluating student achievement in both the classroom and clinical practice.
4. At designated intervals, each student will have the benefit of an evaluation of her/his progress in both the classroom and clinical components of the course.
 - a. Designated intervals are defined in each course evaluation procedures.
 - b. The clinical instructor shall provide the opportunity for each student to make self-evaluations.
 - c. Each clinical instructor shall be responsible for documenting evaluations on each assigned student. Faculty will evaluate students on a timely basis.

- d. If the student's progress is unsatisfactory, additional evidence of guidance conferences may be entered into the student's permanent file.
5. A student may request a conference to evaluate his/her progress.
6. Upon completion of clinical courses, the student's evaluation form will be maintained on Learning Management System in the clinical course shell.

Attendance

Students are responsible for attending all scheduled classes and clinical/practicum experiences. If a student misses a class or clinical/practicum experience, the student assumes responsibility for this action and will be subject to stipulations of policy.

Absences are considered either excused or unexcused. The student is responsible for notifying the theory and/or clinical faculty and the clinical agency when she/he is unable to attend a scheduled class or clinical assignment. The only exception will be when no students attend due to weather or other emergency.

EXCUSED ABSENCES

1. Excused absences are those absences due to illness, personal crisis or special events (i.e., NSSNA, workshops, college functions) where the student has made contact with the course/clinical instructor prior to class or clinical start time.
2. When an excused clinical absence is due to illness, the student will see a primary care health practitioner to obtain permission to return to class and clinical area. The clinical faculty and/or course coordinator may waive this requirement when reviewing the nature of the illness and length of absence. The permission to return to clinical is noted in the student file.
3. For an excused absence related to a special event, the student must receive approval from the course/clinical instructor. If approved, arrangements will be made to make up missed course work.
4. In the event of a crisis in which the student is unable to notify the clinical instructor in advance, the course coordinator or program director, as appropriate, will review the situation. An excused absence will be determined at that time and arrangements made for course work.
5. A student who misses a course examination is responsible for notifying the course coordinator prior to the scheduled exam time. If an excused absence, the student may take the exam at a date to be determined by the course coordinator. A student who does not take the test on the rescheduled date and time will receive an unexcused absence for the test. No penalty shall be incurred under those acceptable conditions of an excused absence listed above.

UNEXCUSED ABSENCES

1. An unexcused absence is any absence in which the student has not made contact, made prior arrangement, is blocked due to health and safety noncompliance, or has not been approved by the course coordinator/clinical faculty.
2. If a student is absent from an examination or fails to turn in a graded assignment, make-up work may be offered at the discretion of the course coordinator except in the instance of health and safety noncompliance. At the course coordinator's discretion, it may be possible for the student to take a missed examination at a date to be set by the course coordinator.
3. Unexcused absences from an examination or failure to turn in a graded assignment may result in a grade of zero.

Clinical and Laboratory

Health and Safety Policy and Requirements

Students entering nursing must submit evidence of good health. It is the responsibility of the student to maintain health and safety requirements. Students who are out of compliance with any health and safety requirements will be blocked from online campus program-specific clinical courses and will not be allowed to attend clinical until the requirements are met. Questions regarding health and safety may be directed to the Clinical Education Compliance office at 402.552.6206 or 402.552.6285.

Health and safety requirements are subject to immediate change in order to maintain compliance with state and federal requirements, Center for Disease Control requirements and standards of practice.

UNDERGRADUATE NURSING HEALTH & SAFETY PROCEDURE

“Blocking Process” for non-compliant students:

- Health and Safety Items are due by 4 p.m. the business day PRIOR to the appropriate College health and safety vendor’s stated due date.
- Rechecks of non-compliant students will **only** occur at 4 p.m. the next business day. Any students compliant will be unblocked and allowed to return to clinical at that time. **No** students will be unblocked before the 4 p.m. deadline.
- Students missing clinical due to noncompliance will result in an unexcused absence (please refer to the absence policy). No make-up assignments and/or clinical will be allowed.
- Student will meet with faculty to establish a clinical contract to outline expectations due to unexcused absence.

CRIMINAL BACKGROUND CHECKS

Criminal background checks may be completed on students as needed for clinical experiences. Prior conviction of a felony or misdemeanor may make a student ineligible to participate in various clinical experiences and may make it impossible for a student to complete the scheduled program of study. Additionally, prior conviction of a felony or misdemeanor may make the student ineligible for professional licensure, professional certification or professional registration, depending upon the specific regulations of individual health profession and the state of practice. If a student is convicted of a felony or misdemeanor during the time he/she is a student, it is the student’s responsibility to inform the Program Director immediately upon conviction.

DRUG TESTING

Students may be required to submit to drug testing, either scheduled or random, in conjunction with clinical nursing courses as required by the College or clinical facility. If a student tests positive for illegal drug use, he/she will not be allowed to continue in the clinical nursing course for that semester.

If a student tests positive for illegal drug use more than one time during his/her plan of study, he/she will be administratively withdrawn from the Nursing program.

LIABILITY INSURANCE POLICY

Clarkson College students registered in clinical courses are covered by the blanket professional liability policy of the College, which is intended to cover the student when engaged in the prescribed curriculum and course work. This policy is limited to coverage of the student in the student role only; it does not cover the student as an employee. It is a blanket liability so there are no individual applications or individual policies. Clarkson

College recommends that any student employed in the health care field or completing clinical course work, carry his/her own professional liability insurance.

For a full list of requirements, refer to the [Health and Safety page](#) on the Clarkson College website

CLINICAL SITES

- Students will attend clinical in multiple sites during their program throughout the Omaha/Council Bluffs metropolitan area and other surrounding communities.
- Students may need to complete specific clinical onboarding requirements for clinical sites. Students will not be able to attend clinical at specific sites if onboarding is incomplete.
- Students will need to obtain own transportation to and from clinical sites.

Clinical Evaluation

The student will be evaluated according to the level competencies that are derived from the conceptual framework and the philosophy of the Clarkson College Baccalaureate Nursing program. Learning experiences provided will give the student the opportunity to demonstrate satisfactory performance of the level competencies and professional behaviors. The student is encouraged to review the clinical evaluation form with the clinical instructor throughout the course.

FORMATIVE EVALUATION

Formative evaluation is an ongoing process that provides data that can be used to develop a more complete evaluation of the student's performance in the course. Formative evaluation (ongoing) is done at intervals specified by the instructor. Anecdotal notes will be utilized to supplement the evaluation form when necessary.

Students will sign signature in the comment box on the LMS, this will serve as student clinical evaluation acknowledgment, documenting they have read the evaluation and understand their present level of achievement.

Students will complete a self-evaluation at midterm and on completion of the course. This will include a rating of individual objectives and a narrative summary note.

SUMMATIVE EVALUATION

Summative evaluation (final) is the composite of the clinical behaviors for the course. Achievement of all of the level competencies is mandatory to successfully complete the course. This includes satisfactory completion of the critical clinical experiences and demonstration of professional behaviors. Summative evaluation is scheduled when the clinical experience is completed. Please see individual course syllabi and evaluation tools for detailed evaluation policy/procedures.

CLINICAL ABSENCES

Students who have missed any clinical or college laboratory experience will be brought to the attention of the course coordinator by the clinical faculty for review.

- Availability of clinical make-up time cannot be guaranteed. The course coordinator and Program Director will determine availability. In the event times are not available, the student will be notified and receive an unsatisfactory grade if course competencies are not met.
- When make-up clinical time is required outside of the regularly scheduled clinical time, a student may be assessed a fee based on the current salary structure for Nebraska Medicine.

- Clinical experience is an essential component of nursing. A pattern of absences will result in failure to meet not only course competencies but achieve program progression. The student may be asked to withdraw or be administratively withdrawn from the Nursing program

GUIDELINES FOR CLINICAL EVALUATION

The student will:

1. Attend conferences as determined by faculty.
2. Demonstrate evidence of following through with suggestions of faculty. A student encountering academic difficulties in a nursing course is expected to make use of all available college resources.
3. Discuss questions or concerns with instructor(s). The student will utilize appropriate communication channels when addressing concerns regarding each course grades/evaluations.
4. Completion of clinical skill check list each semester.
5. The student will sign and date the clinical evaluation tool. Student signature documents that they have been notified of evaluation, not necessarily in agreement with the evaluation. The student may respond to the evaluation in writing.
6. Access midterm and final grades by utilizing the Clarkson College website.

The faculty will:

1. Orient students to evaluation policies and procedures at the beginning of each course.
2. Meet with the student for clinical evaluation conferences a minimum of twice per semester (at midterm and following completion of the clinical/practicum rotation).
3. Document clinical evaluation conferences on the student clinical/practicum evaluation form.
4. Submit the midterm and final grades to the course coordinator, BSN Program Director and Registrar.

Personal Appearance

As a student you represent, not only Clarkson College, but also the professional image of nursing. The following are expectations of the personal appearance of a Clarkson College nursing student.

DRESS CODE POLICY

1. **Hair:** Students must have human colored hair. Extreme looks such as multiple colors; extremes in bleaching, dyeing or tinting; or shaved eyebrows are not appropriate. Hair must be clean and pulled back from the face so as not to fall forward while giving patient care. Beards or moustaches for men will be neatly trimmed.
2. **Make-up:** If worn, is to be conservative and not detract from the attire, uniform or work environment and must reflect a professional image.
3. **Nails:** Need to be smooth, of a moderate length and clean. Artificial nails, nail polish/products are not to be worn by anyone with responsibility for hand-on patient care, as they are an infection control risk.
4. **Jewelry:** Decorative jewelry is to be conservative and not detract from the attire or work environment and must not pose a safety/infection risk. Jewelry should be minimal. Students are allowed:
 - No more than one ring per hand (unless otherwise stated by the clinical agency). Plain-type wedding bands are preferred.
 - No piercings on the body are permitted with the exception of one post/stud type earring on the lower ear lobe.
 - Body piercings (other than the one piercing allowed in the lower ear lobe) will be removed for all clinical settings and experiences. Covering up body piercings with Band-Aids or other

types of concealing methods (i.e.: clear spacers, retainers or make-up) are not permitted. This includes surgically implanted jewelry.

- One small necklace that fits snug to neck or is able to be tucked into a shirt is permitted. Dangling necklaces are a safety issue.
5. **Aftershave, cologne and perfume:** Will be applied sparingly, as patient's sensitivity to scents/odors must be considered at all times.
 6. **Tattoos:** Visible tattoos are not allowed. If a student has tattoo(s), clothing must completely cover the tattoo(s) or apply a concealing item if in an area that clothing does not cover.
 7. **Personal cleanliness:** Daily attention to one's personal hygiene is an extremely important component of each student's overall image. Students will maintain a high level of personal hygiene. Students' breath and clothing/lab coats must not smell of smoke.

NOTE: If a student chooses to wear piercings that are not visible (i.e., under the required clinical attire), Clarkson College will not be liable for injuries that may occur.

CLINICAL ATTIRE: (Uniform)

- Clarkson college uniforms are ordered through Uniforms etc.
 - Website <https://shop.uniformsetc-omaha.com/GroupLogin> and code is BSN4
- Clarkson College white lab coat with current College emblem.
- Clarkson College ID badge and student nurse badge extender.

ACUTE CARE SETTING ATTIRE:

- Clarkson College uniform shirt in pewter grey, brand approved through Clarkson College vendor with current College emblem.
- Pewter grey uniform pants, brand approved through Clarkson College vendor.
- Clean all white or all black, all leather, closed-toed shoes. No prints, swirls or designs in any color will be allowed on shoes.
- Any shirts under scrubs must be all white, black or grey.

ALTERNATIVE CLINICAL SETTINGS AND PRE-LAB ATTIRE:

- Khaki uniform pants, brand approved through Clarkson college vendor
- Navy Blue Clarkson College polo
- Clean all white or all black, all leather, closed-toed shoes. No prints, swirls or designs in any color will be allowed on shoes.

Professional Conduct

Inherent in the profession of nursing are values that are demonstrated through professional conduct. Examples of professional values include demonstrating a commitment to nursing, demonstrating cooperation and collaboration, placing the client's welfare first, exhibiting personal as well as intellectual responsibility, and adhering to the Nursing program and clinical facility policies. These are areas by which the student is evaluated in the area of professional conduct.

In keeping with the philosophy of Clarkson College, a student is expected to exhibit professional behavior when performing nursing activities or representing the Nursing program in any capacity. The student is expected to follow the "Code of Conduct" identified in the Clarkson College academic catalog.

PROFESSIONAL CONDUCT

COMMITMENT TO NURSING

When in the clinical area or any clinical experience, the student should be identified as a Clarkson College student by proper uniform, and/or identification as listed in the Dress Code Policy. The student is expected to exhibit a professional manner, which includes but is not limited to having a neat, clean appearance and utilizing appropriate language and behavior.

The student will be identified as a Clarkson College Nursing student when completing official agency records or forms (e.g. by writing J. Smith SN1 CC, SN2, SN3, SN4). Additional titles may not be used when in a student role unless a student is already an RN and currently enrolled in the RN to BSN program.

The student notifies the clinical faculty or preceptor appropriately when she/he is unable to complete nursing responsibilities, will be absent from the clinical setting or must leave the clinical area prior to the end of clinical time.

CLIENT WELFARE

The student is expected to deliver care in a nondiscriminatory and nonjudgmental manner that is sensitive to client diversity. When providing care, the student places the client's welfare first by: being accessible and prompt in answering the client's requests; establishing a priority of activities that reflect the client's needs; and being responsible and reliable when needs are identified by the client, staff or clinical instructor. The student delivers care in a manner that preserves and protects client autonomy, dignity, rights and confidentiality.

COOPERATION & COLLABORATION

The student interacts professionally, both written and verbally, with faculty, staff, clients and peers when giving and receiving information. When a question or unclear situation occurs, the student follows the appropriate channels of communication and authority for clarification (instructor, course coordinator, BSN Program Director, Dean of Nursing and Vice President). The student's written work/charting is accurate, has a professional appearance and is completed according to standards of the agency and Clarkson College. Cellular phones, beepers and pagers are to be used in emergencies and according to agency policies as well as at the discretion of the instructor.

The student is a cooperative team member who considers the needs of the entire group when working together, giving and receiving assignments, and accepting the roles and responsibilities of others in the group. The student accepts and acts upon constructive criticism.

The Assistant Program Director, in consultation with the course coordinator, reserves the right to adjust assignments as warranted by clinical objectives, clinical facility requests and faculty availability. Any changes, which substantially affect a student's schedule, will be communicated to the student by the course coordinator and/or Assistant Program Director.

INTELLECTUAL & PERSONAL RESPONSIBILITY

The student exhibits intellectual and personal responsibility by readily acknowledging mistakes and/or oversights, and takes action to correct the situation. The student is honest and truthful when interacting with clients, peers, faculty and staff, and in completing written work such as charting, care plans, assessment guides, etc. The student completes her/his own work, not representing anyone else's work as being their own. The student identifies group collaboration on projects when indicated and appropriate. Refer to Policy on Academic Honesty in the College academic catalog, which will extend to the class and clinical experience.

CODE OF CONDUCT

Members of the Clarkson College community include administration, faculty, staff and students. Clarkson College students are not only members of the College community, but they are also citizens of the larger society. As citizens, they retain those rights, protections and guarantees of fair treatment that are held by all citizens. In addition, Clarkson College students are subject to the reasonable and basic standards of the College regarding discipline and maintenance of an educational environment. The purpose of the Clarkson College Student Code of Conduct is to foster a sense of accountability, trust, responsibility and professionalism among students, faculty and administration. The Code of Conduct is designed to assist in the personal and intellectual development of students as they work toward becoming health care professionals, as well as behavior expectations, which are outlined in departmental handbooks.

The College goals for its disciplinary policy, as set forth in the Student Code of Conduct, are:

- to promote ethical behavior
- to ensure the integrity of the academic enterprise
- to develop a sense of responsibility to maintain the honor of the health care profession
- to provide an atmosphere of safety and well-being

It is important to note that one's behavior as a student may have a long-term effect on one's career in addition to having Code of Conduct consequences at Clarkson College. A violation of certain laws may jeopardize a student's ability to obtain professional licensure. Therefore, students should consider their career goals as well as the Clarkson College Code of Conduct before making behavioral choices

Students are required to engage in responsible social conduct and to model good citizenship as members of the community. Clarkson College expects the following of students:

- demonstrate honorable and responsible behaviors
- demonstrate a keen sense of ethical conduct
- behave respectfully
- be considerate of other people and property
- be trustworthy
- demonstrate honest character upon which others may rely with confidence
- communicate professionally (both verbally and in written form)

Code of Conduct Policy

Academic Integrity

Fundamental Values of Academic Integrity

According to the International Center for Academic Integrity, there are five fundamental values that characterize an academic community of integrity:

- **Honesty:** The quest for truth and knowledge requires intellectual and personal honesty in learning, teaching, research and service. Honesty in the way we utilize information to articulate academic positions and activities related to the pursuit of knowledge and understanding.
- **Fairness:** All interactions among students, faculty and administrators should be grounded in clear standards, practices and procedures.
- **Trust:** Academic institutions must foster a climate of mutual trust in order to stimulate the free exchange of ideas.
- **Respect:** Learning is acknowledged as a participatory process, and a wide range of opinions and ideas is respected.
- **Responsibility:** An implied contract exists between faculty and students to comport ourselves in upholding the Mission and Values of Clarkson College. A thriving academic community demands personal accountability on the part of all members and depends on action in the face of wrongdoing.

These values represent the principles that bolster how we live and learn in a community actively engaged in intellectual investigation. As members of a community of scholars, we are entitled to academic freedom in the pursuit of intellectual interests. With that freedom, however, comes the responsibility to uphold the highest ethical standards of academic and professional conduct.

Clarkson College is unwavering in its commitment to the ultimate standards of integrity. If students do not live up to these high standards, it compromises not only the value of his/her education but also their future professional competence. Clarkson College expects all students to pursue his/her educational aspirations with passion and integrity, honestly completing each course requirement as assigned, as well as demonstrating professionalism in every clinical experience.

What is Academic Misconduct?

- Cheating or seeking to gain an improper advantage by utilizing unauthorized materials on quizzes, tests, examinations, papers and/or other assignments.
- Collusion or improper collaboration (unauthorized by the instructor).
- Deception and misrepresentation of your work, your academic records or credentials.
- Destruction of property, electronic dishonesty, hacking, etc.
- Fabrication of sources, forgery or alteration of documents.
- Facilitating academic misconduct by others (aiding and abetting).
- Falsifying data from a lab report, research, clinicals or an experiment.
- Intimidation and interference with integrity processes.
- Misrepresenting research findings.
- Professional misconduct.
- Sabotaging the work of others.
- Submitting the same assignment for different classes (multiple submission).
- Plagiarism

- The duplication of an author's words without quotation marks and accurate references or footnotes.
- The duplication of an author's words or phrases with footnotes or accurate references but without quotation marks.
- The use of an author's ideas in paraphrase without accurate references or footnotes.
- Submitting a paper in which exact words are merely rearranged even though they are the same is misrepresentation. Misrepresentation is the submission of materials for evaluation that are not the student's own.

Student Responsibility

At a minimum, the College expects the student to complete any assignment, exams and other academic endeavors with the utmost honesty, which requires the student to:

- Acknowledge the contributions of other sources to their scholastic efforts.
- Complete assignments independently unless otherwise instructed.
- Follow instructions for assignments and exams, and observe the standards of academic discipline.
- Avoid engaging in any form of academic dishonesty on behalf of the student or another student.
- Ask the faculty if there are any questions regarding academic honesty.

Sanctions

In the event a student is found guilty of violations to the Academic Integrity policy, the Vice President of Academic Affairs (VPAA) will provide documentation to the student regarding their level of violation.

First violation: Warning

The office of the VPAA will send a letter to the student informing him/her of the Academic Integrity violation and possible consequences of future violations to the policy.

At this level, the student must meet with the program director to discuss the Academic Integrity policy and remediate as appropriate. The program director must document what remediation was given.

Second violation: Academic Integrity Probation

The office of the VPAA will send a letter to the student informing him/her of the second Academic Integrity violation and possible consequences of future violations to the policy.

The student is then placed on Academic Integrity probation, which entails the following:

- A student is placed on Academic Integrity probation for his/her second violation to the Academic Integrity policy. A notation is placed in the student's file to serve as an alert to the student that his/her academic behavior is unacceptable and to impress upon them the importance of giving serious attention to their academic integrity behavior in order to continue to be a student at Clarkson College.
- The student will remain on Academic Integrity probation until graduation.

At this level, the student must meet with the program director to discuss the Academic Integrity policy and remediate as appropriate. The program director must document what remediation was given.

Third violation: Dismissal from the College

The office of the VPAA will send a letter to the student informing him/her of the third Academic Integrity violation and dismissal from the College.

Academic Integrity policy violations that involve substantial dishonesty, pre-meditation and disregard for the Academic Integrity policy may warrant a more severe sanction regardless of prior violation.

Due Process

Academic integrity issues should be resolved at the lowest level possible. However, when a student disagrees with a faculty member regarding the issue of Academic integrity, the student has five business days to submit an appeal in writing to the Vice President of Academic Affairs (VPAA). If the student fails to meet the above deadline for appealing a decision, the standing decision is final. The VPAA will convene the Academic Integrity committee to review the appeal within 15 business days of the request.

In acknowledgement of the code of conduct and academic integrity policy, all BSN students are required to sign the Baccalaureate Nursing Program Honor Pledge found at the end of this handbook.

Social Media

The rapid growth of social media technologies combined with their ease of use and pervasiveness make them attractive channels of communication. However, these tools also hold the possibility of a host of unintended consequences.

Applications that allow you to interact with others online (e.g. Facebook, LinkedIn, Twitter or Snapchat) require you to carefully consider the implications of friending, linking, following, or accepting such a request. There are potential with social media to share protected information. Relationships such as faculty-student, and staff-student merit close consideration of the implications and the nature of the social interaction.

Guidelines for posting

- Do no harm
- Does it pass the publicity test
- Be aware of liability
- Maintain transparency
- Be a valued member
- Think before you post
- Take the high ground
- Respect your audience
- Correct mistakes
- Protect your identity
- Do not use pseudonyms
- Use a disclaimer
- Do not use the Clarkson College logo or make endorsements
- Do not post any information regarding clients or clinical site

[Clarkson College Social Media Guidelines](#)

Mission

Preparing students to professionally provide high quality, ethical and compassionate health care services.

Values

Learning

The lifelong process of education through both structured and unstructured experiences.

Caring

An empowering relationship through an attitude of empathy, compassion and respect for those with whom we interact, serve and lead.

Commitment
